A sub-fund of Northern Trust Investment Funds plc

ISIN: IE00BJN5LD49

Management Company: Northern Trust Fund Managers (Ireland) Limited (the "Manager")

OBJECTIVES AND INVESTMENT POLICY

The Fund is a UCITS feeder fund. The Fund's investment objective is to invest at least 85% of its assets in the Northern Trust World Custom ESG Equity Index Fund (the "Master Fund"), a Sub-Fund of the Northern Trust UCITS Common Contractual Fund, the investment objective of which is to closely match the risk and return characteristics of the MSCI World Custom ESG Index (the "Index") with net dividends reinvested.

The Fund may invest up to 15% of net assets in aggregate in ancillary liquid assets including cash deposits, cash equivalents, certificates of deposits, U.S. treasury bills, investment grade corporate bonds, commercial paper and short term money market deposits and Money Market Instruments which may be held by the Fund to meet expenses or pending investments.

The Master Fund invests in equities (that is, shares and other similar kinds of assets) issued by or relating to companies included in the Index.

The Master Fund is an index tracking fund and seeks to track the risk and return characteristics of the Index by buying most or all of the stocks of the Index. This means it may not hold all the same assets as the Index or hold assets in the same proportion as the Index, and therefore may not match the Index performance.

The Index is a custom index which corresponds with the MSCI World Index with the exclusion of companies not considered to meet socially responsible principles identified by applying criteria that refer to the UN Global Compact ten principles, as well as other ESG criteria selected by the Investment Manager. For further details on the UN Global Compact principles, please refer to

www.unglobalcompact.org/AboutTheGC/TheTenPrinciples/index.html.

The investment returns of the Fund are expected to be similar to those of the Master Fund. The investment returns of the Fund may differ from those of the Master Fund due to changes in the exchange rate between the base currency of the Master Fund (USD) and the currency of the Fund.

Target Market: This Fund is appropriate for investors who plan to invest over the medium to long term; and are looking for a passively managed investment in the relevant market(s) with Environmental, Social and Governance (ESG) principles implemented according to a defined set of exclusions as well as assessment of ESG ratings.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Manager considers that the Fund meets the criteria in Article 8 of the Sustainable Finance Disclosure Regulation (Regulation EU/2019/2088) to qualify as a financial product that promotes, among other characteristics, environmental or social characteristics. More information on this product's sustainability factors can be found in the Supplement and on our website at www.northerntrust.com/europe/what-we-do/investment-management/sustainable-finance-regulation.

The Fund may invest in derivatives (currency forwards and exchange traded futures) for hedging purposes only. The Master Fund, for efficient portfolio management may enter into repurchase and reverse repurchase agreements to achieve its objective and to reduce risk, minimise costs or generate additional capital or income.

The shares in the Fund are either accumulating or distributing. If you elect accumulating shares, any income received will always be included in the value of your shares. If you elect distributing shares, any income received will be distributed annually, and you can request either a cash payment or additional shares in the Fund.
